### Part B

#### **CRITERION I – CURRICULAR ASPECTS**

##### **1.1 – Curriculum Planning and Implementation**

1.1.1 – Institution has the mechanism for well planned curriculum delivery and documentation. Explain in 500 words

Yes, we do have a nomenclature for an effective curriculum transaction. Our

institute majorly focuses on effective curriculum transaction. In the following procedure of curriculum transaction, we focus on classroom interaction as well as co-curriculum activities. There are a numerous amount of activities that are taking place as per our curriculum, we also believe that regular monitoring is the key of success in any process, for that we have also formed various committees at college and department level. These departmental committees submit their reports regularly to the college level committee, wherein the departments are accountable for the well-planned curriculum delivery and documentation; with an up-to-date record of the following. The college level committees ask them to submit their reports periodically and on the basis of those reports assess the execution of the plans and physical verification also takes place. Thus, we have also found that these practices are very helpful to enhance the quality of teaching and improved learning as well.

### 2.3.2 – Students mentoring system available in the institution? Give details. (maximum 500 words)

Each and every faculty member in our college has anticipated the student mentoring system. The role of the mentors is to guide their mentees not only concerning academics issues but also in all possible problems, social and personal. Mentoring the students helps them to understand how their ambitions survive into college life and job choices. It also deals confidently with the challenges of intellectual work together with productivity in college activities, conferences, presentations and in social atmosphere. It also gains perspective on how a discipline operates academically, socially and politically. It builds academic success persisting in the college, taking shorter time to complete a degree and performing better in academic coursework, to keep abreast of new research questions, knowledge and recent techniques. In addition to this once a year the mentors take up the assignment of teaching certain topics related to the syllabus to their mentees. This practice helps in shaping the attitudes and behavior of their mentees thereby improving their skills in communications, leadership and management. Mentoring students on a personal level helps lighten their fears and doubts and boosts their confidence, motivates them to set higher goals for themselves for future career development. They also provide them counseling about their future prospects, career prospects and future opportunities.

2.5.2 – Reforms initiated on Continuous Internal Evaluation(CIE) system at the institutional level (250 words)

The following reforms have been provided at the college level on Continuous Internal Evaluation (CIE). At the beginning of the semester/year, students are apprised /informed about Continuous Internal Evaluation (CIE) that they could be regularly evaluated throughout the semester. Under the Continuous Internal Evaluation, student's performance is monitored and evaluated formally as well as informally. Formal evaluation is done via sessional tests and Assignments. The Kumaun University Nainital conducts the single yearly and two time session test at the UG/PG level. Besides this formal assignment and evaluation, students are also evaluated informally based on their active participation in the teaching-learning process, their punctuality and regularity, their performance in group discussions, classroom quizzes etc. CCTVs are installed in the whole campus for monitoring student's activities, particularly during examinations for the purpose of stopping the cheating. All the activities are monitored by the senior superintendent (SS), assistant superintendent (AS) and other helping staff. This ensures a fair examination system. Transparency is maintained in declaring the results of infernal tests. Results are displayed on the Department notice boards for students. Students problem are rectified on the spot. The detailed feedback is provided to them about their performance. Suggestions are also provided for improvement. Marks obtained by students in-session Tests are uploaded on the Kumaun University Nainital award sheets via online mode, also send to university through offline. Besides their syllabus, we also motivate and provide appropriate knowledge to students for state/national examinations like DEFENCE SERVICES /UKSSSC /JAM/BANKING/RAILWAY/GATE /NET /UKPSC /UPSC etc. resulting in more students are clearing state level exams and giving their services in Govt. of Uttarakhand, Central Government and other state Government.

5.3.2 – Activity of Student Council & representation of students on academic & administrative bodies/committees of the institution (maximum 500 words)

The primary goal of an educational institution is to concentrate on the holistic development of the students and so it is important for the students to be able to express their views on the issues related to them viz. their development (academic as well as otherwise), problems and possible solutions etc. The student council is really the machinery which enables the students to actively participate in the overall development process. In the recent past sessions the student council has raised a number of issues related to the students with the local representatives (including the MLA of the region), local bodies (Nagar Panchayat) and the local administration/ District administration. These include: 1. Request for construction of (sufficient number of) toilets in the college mainly for the female students. 2. Request for the construction of the college main entrance gate and also the demand for the

beautification around the main entrance gate as well as laying tar on the road from gate to the campus was also raised. 3. Request for opening National Cadet Corps (NCC) for the students in the college. 4. Request for providing books (based on the new annual syllabus) for the 1st year UG and PG students. This was an urgent necessity brought about by the fact that the annual pattern was imposed, at the 1st year level, during this session and more over the college library too didn't have the sufficient number of books which would cover all the topics in the new syllabus. Besides all this the college student council routinely has helped students in various possible ways. Specifically at the times of admissions, during the beginning of the session, it helps (chiefly) the new comer students/aspirants (seeking admission in 1st Year UG) by explaining and guiding them about the various aspects of the admissions process as well as a general view of the college workings (classes, administration, facilities etc.). As most of the new admission students belong to the rural areas and have very low exposure and tend to be on the introvert side. In such cases a friendly greeting from a member of their community (i.e. the student's community) helps them immensely.

### 7.2 – Best Practices

#### 7.2.1 – Describe at least two institutional best practices

Institutional Best Practices (Best Practice- I) 1. Title of the Practice: Coaching Program for Competitive Exams 2. Objectives of the Practice: To prepare the college students for various competitive exams, along with their

regular studies, it was realized that a proper classroom?coaching environment was needed. Along with good and appropriate study material, which is available in the library as well as personally, proper mentors and/or resource persons are a must for competitive preparations. 3. The Context: The need for some kind of proper classroom?coaching environment focused on competitive exams had always been felt. This year the college contacted the District Administration (specifically the Sub- District Magistrate) and they decided to lend a helping hand to this cause. The District Administration employed a few resource persons (familiar with Civil Services Exams, Banking Exams and other similar exams) from their own end and started coaching classes for the college students. Some of our faculty members also provided their expertise at times. Moreover some member from the District Administration ( ADM, SDM, Tahsildar) or some other officers (Bank P.O.'s and clerks etc.) also took some lecture?sessions for the students in these classes. These particular sessions were more about mentorship and their own experiences and methods/ resource/ tactics during their own competitive preparations. These free coaching classes are really a boon for the aspiring students, most of who hail from the (relatively) low income groups of the society. 4. Obstacles faced/Problems encountered: One of the major obstacles with the operation was the time period for conduction of these classes. These classes had to be operated without disturbing the normal teaching routine of the college/students. So these classes had to be operated either early morning (before the college starts) or late afternoons (after the college ends). This made it difficult for some of the students to attend these classes as they hailed from the nearby villages and transport facilities (to and fro) become rarer at such odd times (early morning or late evening). 5. Impact of Practice/ Evidence of Success: The success of an effort to create a learning environment can only be judged after some time. But the enthusiasm of the students towards these classes despite the hardships caused by the odd? timings is reason enough to pursue such an effort. Moreover the students who attended these classes were becoming more and more confident in general. Also a mind-set change in terms of setting definite goals and chalking out a path to reach that goal was also seen amongst the attendees. Institutional Best Practices (Best Practice- II) 1. Title of the Practice: WOMEN EMPOWERMENT AND GENDER JUSTICE 2. Objectives: I. To increase access of women to education and ensuring gender justice and their empowerment. II. To create more awareness on the issues of gender sensitization among the students. III. To provided women with equal opportunity. 3. The Context: The College in keeping with the tradition of imparting holistic education emphasizes on the ethical and moral principles. The college being a coeducational institution sensitizes its staff and students on issues such as women empowerment and gender justice. Importance of women education has been strongly realized for the eradication of backwardness in Eastern Uttarakhand. Being the future caretakers of generations to come, the upgrading of women, in the recent background of violence against them, is the priority of the college. 4. The Practice: The college being a coeducational institution sensitizes its staff and students on issues regarding women. Women's Cell of the College is entrusted to look after the specific needs and guidance of female students. Women related topics have been in the curriculum of some subjects like in English, Political Science etc. To create more awareness on these issues among the students several Gender Sensitization Programs were regularly conducted by the Women's Cell and various departments as listed below: (i) One day workshop on "Gender equality in education", by B.Ed. Departments. (ii) A special lecture on "Gender equality in politics" by Political Science Department of college. (iii) A special lecture on "Gender mainstreaming - strategies to address gender inequality" by women's redressal cell of college. (iv) Organize a program on "Gender identity" by Science Faculty of college. (v) Organize a program on "Role of education to attain gender equity" by History department of the college. The Women's Redressal cell in collaboration with Grievance Redressal Cell addresses the issues related

with girls. Immediate action is taken on these cases. Continuous vigilance is maintained by the Proctorial Board and also through CCTV cameras. 5. Evidence of Success: I. The college has been successful in ensuring the safety and dignity of female students in the campus. In the few last years the college has not witnessed any sort of offence against women within the campus. Thus the College maintains a harmonious and women friendly campus. II. The college has taken on additional responsibility of ensuring the safety of women students and staff who are coming from faraway places. III. The percentage share of girls in total registered students was higher than boys in last years. IV. The girl students of the college were actively participated in various program which is organized by college and other institutions. V. The passing percentage of girls in university exam was higher than boys in last years. 6. Problems Encountered and Resources Required: I. Mobilizing funding for various activities related to women empowerment and gender Justice is a difficult task. II. Many parents and families have traditional thought regarding gender equality.

### 7.3 – Institutional Distinctiveness

7.3.1 – Provide the details of the performance of the institution in one area distinctive to its vision, priority and thrust in not more than 500 words

Details of the performance of the institution in one area distinctive to its vision, priority and thrust The college is situated in a remote, near hilly region and semi-urban region. Most of the students hail from villages (some quite far) and have a weak economic background. Lack of any exposure (to opportunities, guidance, career choices, English language, Computer knowledge etc.) at any previous stage (school level etc.) already sets them at the back foot and thus affects their overall growth in the future. The majority of students in the college are girls (more than 60 in the current session). Also, the number of students from the SC, ST and OBC category in the college is quite large. The college thus caters to the socioeconomically deprived and weaker sections of the society as a place of higher education. Moving forward, from the just traditional teaching-learning paradigm, the college strives to work progressively towards an all round development of the students' personality. In line with our vision, of providing quality higher education and skill to the students for employability and overall personal development along with the creation of a knowledge based society, we endeavor forward with the resources (both human and infrastructural) at hand. We wish to instill a sense of self-cognizance amongst the students to help them get their rightful and meaningful roles in the society. The major thrust of the institution is to provide a conducive environment for learning and assimilation of knowledge. The institution is providing quality based education to the students in the way, that the institution could produce confident and responsible citizens.
